Absolute humidity. Absolute
humidity is the total mass of
water vapour present in a given
volume or mass of air. It does not
take temperature into
consideration. Humidity -
Wikipedia - Overview. Central
heating differs from space heating
in that the heat generation occurs
in one place, such as a furnace
room or basement in a house or a
mechanical room in a large
building (though not necessarily
at the geometrically "central"
point). Central heating -
